

Premium Educational Summer Camp Details – PMISCC JAVA Camp Trinidad

PMI JAVA Camp, Educational Summer Camp Age Groups - Tailored Learning for Every Child

Group A: Ages 9-12 Years (Elementary Leadership Camp)

- **Focus:** Foundational life skills through creative, hands-on projects
- **Learning Method:** Game-based education and interactive activities
- **Sample Projects:** Building mini theme parks with LEGO, planning school fair booths, creating comic books with project timelines

Group B: Ages 13-16 Years (Advanced Leadership & Skills Camp)

- **Focus:** Advanced project management concepts and leadership development
- **Learning Method:** Real-world applications and structured frameworks
- **Sample Projects:** Organizing mock community events, designing mobile app concepts, filming professional short videos with project plans

5-Day Educational Summer Camp Curriculum - Skills-Based Learning Journey

Day 1: Leadership Foundation & Team Building Skills

"What is a Project?" - Educational Summer Camp Introduction Children learn fundamental project concepts, team formation skills, and leadership roles. They create their first Project Charter and understand collaborative teamwork - essential skills for school and life success.

Day 2: Time Management & Planning Skills Development

"Let's Make a Plan!" - Educational Summer Camp Core Skills Your child masters task breakdown, timeline creation, and priority management. These **life skills** translate directly to improved homework management and academic planning.

Day 3: Resource Management & Problem-Solving Skills

"What Do We Need?" - Educational Summer Camp Critical Thinking Through budget simulation games and resource planning activities, children develop practical money management skills and strategic thinking abilities.

Day 4: Project Execution & Communication Skills

"Let's Get It Done!" - Educational Summer Camp Leadership Practice Teams execute their plans while practicing presentation skills, public speaking, and peer feedback - building confidence for school presentations and future leadership roles.

Day 5: Project Showcase & Leadership Recognition

"Show What You Know!" - Educational Summer Camp Celebration The culminating event where children present projects to parents and community members, demonstrating their newly acquired skills and boosting self-confidence.

Educational Summer Camp Project Examples - Real Skills in Action

Elementary Educational Summer Camp Projects (Ages 9-12):

- **School fundraiser planning** - Learn budgeting, event management, and community engagement
- **Custom board game creation** - Develop rule-making, design thinking, and instruction writing skills
- **Model amusement park construction** - Master spatial planning, teamwork, and presentation skills
- **Pet adoption awareness campaign** - Build communication, research, and social impact project skills

Advanced Leadership Camp Projects (Ages 13-16):

- **Mobile app design mockup** - Learn user experience design, market research, and technology planning
- **Professional short film production** - Develop storytelling, project scheduling, and multimedia skills
- **Teen wellness event planning** - Master event management, health awareness, and leadership coordination
- **Small business development** - Learn entrepreneurship, financial planning, and marketing strategy (such as school garden with produce sales)
